The Taj Mahal, built by an emperor in memory of his beloved queen. Construction of the Taj Mahal began in 1631, and is believed to have taken 18 years to complete, with over 20,000 craftsmen working around the clock. The design and construction is said to be that of the legendary architect, Ustad Ahamad Lahori. Legend has it that once construction was completed, Shah Jehan had Lahori's hands cut off, and blinded, so he would never be able to duplicate the structure. What makes the Taj Mahal unique is its perfect proportions, distinct femininity, medium of construction and ornamentation. Its marble exterior reflects rose and golden tints at sunrise and sunset, while it is dazzling white during the day. It is impossible to visualize the Taj Mahal in any surrounding others than its paradoxical garden. Paradise, in Islam, is visualized as a lush garden where running streams flow. When the Mughals brought this concept to India they elevated it to heights of incomparable artistry.
